The Stepping Stone...

The introduction of Student Calendar is one of the best practices of our college.

Designed as a book of information, the college 'Calendar' catches one's eyes. The book provides an orderly arrangement of all the events and activities which is a guideline for both students and their parents about the curricular, co-curricular and extra curricular activities. It is an academic alert to all the stake holders.

This book unlocks the information about the activities spread over the academic year 2022-23. The celebration of festivals both cultural and national, the academic calendar of events, the time table with scheduled monthly events and programmes are incorporated for the cultivation of a mindset of an early preparedness in students.

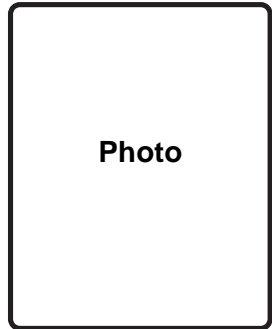

Attendance certificate and examination result are very important component of this book, which provides monthly attendance and result status of the student for which the signature of the teacher concerned, class teacher and the parent is mandatory.

I congratulate all the faculty who worked relentlessly in completing this task of compilation in a refined format.
