Foreword

I am happy to write the 'Foreword' for Education Report 2023, brought out by our college. It has been acknowledged by NAAC as one of the 'Best Practices' followed by the college. The development of the well-rounded individual is the principal goal of co-curricular activities in the campus. The numerous experiences these activities provide, positively impact students' emotional, intellectual, social and inter-personal development. The report is an effort to mirror this vibrant academic as well as co-curricular excellence pursued by the departments for the benefit of the students as well as their own academic growth. Therefore, it is not just a book of information or a mere compilation of activities. It also speaks of the ASIC engagements showcasing the overall development of the college in general, teachers and students in particular. It reflects the broad base approach of the college in its governance: such as administration, student's centered, institutional based and co-curricular activities. The academic and non academic excellence displays the overall performance of college in general, teachers and students in particular. Utmost importance is taken while presenting the information-it is factual to the core.

As I pen these few words, I am glad to express my appreciation and satisfaction regarding the dedication of our faculty and technical staff who have a role in the preparation of this Education Report. This is the right time to equip students with greater knowledge in the scenario of rapid changes in the field of higher education to make our students finer citizens of the society. Education Report 2023 speaks of our commitment in this direction. I sincerely thank Dr. Doddarasaiah G, Convenor, Smt. Chaya S.A. for their efforts in giving the college activities a final shape in the form of Education Report.

Dr. B.R. Jayakumari
Principal

From the Editor's Desk

All roundness is the theme of modern education. In the book "21st Century Skills: Learning for Life in Our Times", the authors Bernie Trilling and Charles Fadel have premised that "the world has changed so fundamentally in the last few decades that the roles of learning and education in day-to-day living have also changed forever". Every institution should brace itself to this challenge. We, at Mahajana College constantly strive to keep students engaged constructively beyond the classroom and the Education

Report which has become part of our system is an effort to present a comprehensive picture of the learning atmosphere in the college provided through the ASIC Fora. The practice itself has come to be widely appreciated along with Education Report. The book is a true reflection and no colors are added.

I am extremely happy to present Education Report 2023. It is a long drawn process and I would like to express my sincere gratitude to Principal Dr. B.R.Jayakumari for her continuous support and encouragement during the compilation of the report. I would also thank Dr. C.K. Renukarya, Director, Mahajana Post Graduate Centre for his support. I thank all the teaching staff for their co-operation. My heartfelt gratitude to Smt. Kamalakshi S, Smt.Chaya S.A. for her efforts to type the manuscripts and Mr. Ningegowda for the photographs. I am also thankful to Dr. Sangamitra Gowtham M J, Assistant Professor, Department of MBA, Mahajana PG Centre, for her support.

1. Name of the Department : Biochemistry**2. Motto/Vision/Mission Statement:****Motto:**

Our motto is to provide impetus for education, training, opportunities and work environments that are characterized by honesty, liability, impartiality, and a commitment to understand concepts of life at the Biochemical and Molecular level for all cadres of society.

Vision:

Our vision is to obtain a well-defined elucidation of the molecular interactions that underlie both normal physiology and disease states of life forms which is the foundation of etiology, drug designing and personalized medicine. Additionally, our goal is to understand the molecular mechanisms of and to develop new tools, for biology such as biosensors, biomarkers, study models and therapeutic molecules that will enhance the quality of life through better medical care, disease prevention measures, nutrition, and environmentally sound processes.

7. Future plans for the next academic year:

- We have planned innovating extension activities pertaining to academia and co-academia for the students of graduate programs at the colleges in Mysuru. Agenda also includes bridge-course programs for the first semester students of M.Sc. Biochemistry to dodge the gap between their graduate understanding of the subject and the post graduate level understanding. Future program will focus on enhancing the soft skills of both faculty and students.
- In a novel move, we have initiated a “**Teaching Assistant**” program at our department where the advanced learners of III semester will be guiding the I semester students in their laboratory and academic assignments. This novel program started in order to boost the confidence of the senior students and set an inspiring aspiration for the junior students. This is expected to improve the leadership qualities and communication skills of the students in both the classes.

7. Future plans for the next academic year:

The Computer Science department always strives to achieve strong academic goals and is committed to advancing knowledge, educating the next generation of computer scientists, and making a positive impact on society. The specific plans include:

1. **Research Excellence:** Foster a culture of research excellence by conducting cutting-edge, impactful research in various subfields of computer science. This involves publishing in reputable conferences and journals, obtaining research grants, and collaborating with industry partners.
2. **Advanced Education:** Provide advanced and specialized education to postgraduate students, equipping them with in-depth knowledge and skills in their chosen areas of study within computer science. This involves offering a diverse range of courses, seminars, and workshops.
3. **Graduate Student Development:** Support the professional and academic development of postgraduate students by providing mentorship, research opportunities, and resources. Encourage students to present their work at conferences, publish papers, and engage in collaborative projects.
4. **Industry Relevance:** Align academic programs with the needs of the industry by staying informed about current trends and emerging technologies. This involves establishing partnerships with industry organizations, offering industry-focused courses, and facilitating internships or cooperative education experiences.
5. **Global Engagement:** Foster international collaboration and exchange programs to provide students with a global perspective on computer science. This includes partnerships with universities and research institutions worldwide.

Studio Media Centre

Sri Rajendra Prasad C
Convenor

Motto/Vision Statement:

Motto: 'Feed the watchdog, build the safe society' To groom the students as Media Professionals with knowledge and skills to excel.

Vision: To inspire successive generations of talented individuals to become dedicated Journalists.

A Report of Studio Media Centre:

Since the inception of Studio Media Centre in the College, it was envisioned that the Centre would develop into a huge digital repository with state of all facilities. Media Centre started has evolved into a major repository of audio/visual documentation encompassing all the arts, creativity and culture, academic, enveloping the development of MES.

There are Two 4K Video Cameras and one Full HD Camera with studios within the Media Centre, along with Studio B/Milo/Croma (the 'green screen'), and we able to do live multi-camera production and all can be interconnected with network facilities with 2 HD TV.

Studio Gallery Suite is where production, lighting, camera control, graphics and Autocue are controlled. Broadcast have supported us in the development of the Media Centre, meaning we have broadcast-standard monitors and One new full-HD digital vision mixing desks where the sound for the studios.

Studio is having a green screen croma for recording material that will then have CGI (computer-generated imagery) added to form the final image. The studio has a motion control camera, 'Milo', which can reproduce the same programmed move repeatedly. This allows the CGI and the live image to be synced.

Media Centre has created its documentations in various formats namely in VHS, U-matic, low-band, high-band, Beta and present digital format by using

Recording and Editing Softwares. Media Center has taken care of preserving the culture, academic and institutional programmes, lectures in audio/visual documentation with changing times.

Media Centre has been endeavouring to do audio/visual research documentation and archiving them for prosperity and implementing the same by dissemination as well. The major work of Media Centre is:

The print journalism space allows you to collaborate ideas and learn from other fellow students, as well as:

- i. Discuss aspects of news – including ethics and practical requirements as per syllabus.
- ii. Utilise the computer labs – by using specialised computer software and hardware to prepare to write engaging newsworthy stories, designing and pagination and layouts of the newsletters.
- iii. Print Media lab for train up the students from Journalism and Mass Communication by giving practical skill development programmes by using software like PageMaker, Photoshop, Indesign. Newsletter designed, paginated edited by students, individual newsletter has to released by the each students of the Department.
- iv. Media Centre Library holds all the documentaries published in DVD format and facilitates creation of new DVDs.
- v. Post production: Media Centre is not limiting itself to just documenting and archiving rather it has developed a new role to edit the footage and create long documentations also to create documentaries, lecture series by the faculties for mass dissemination.

Studio Media Centre opened its doors for all platform newsroom features:

- Video editing suites
- Television studio
