INTERACTIVE SESSION ON FULL STACK DEVELOPMENT

Venue : Life Sciences Auditorium, PBMMEC

Department of Computer Science, PBMMEC in collaboration with GTRAC –Greenfield Training Academy and JayBlues Technologies, Mysuru

Purpose and Scope of the Event: Industry Ready Skills and Motives in Full Stack development. The scope of work for full-stack developers is increasing. In the past, a developer would be assigned to a specific technology or project and would focus on that piece of the project. Now, full-stack developers are expected to be able to work on multiple technologies at the same time and even switch from one technology to another to get things done more efficiently.

An Interactive Session on "FULL STACK DEVELOPMENT" was organized on Wednesday, 27th of September 2023 by GTRAC - Greenfield Training Academy, Mysuru and JayBlues Technologies, Mysuru in collaboration with the Department Of Computer Science, Pooja Bhagavat Memorial Mahajana Education Center. The program was coordinated by Mrs Rachana.C.R, Associate Professor & HOD, Computer Science and Dr Anisha Kumar, Assistant Professor and TPO.

Mr. Ajay, CEO of GTRAC - Greenfield training academy was the speaker of the day. The session focused on Industry Ready Skills and Motives in Full Stack Development.

The Session was conducted in Life Sciences Auditorium between 11.45am and 1:15 pm. The speaker of the day Mr. Ajay spoke about the skills in Full Stack Development and their duration

to be industry ready. He also explained about the domains, types of architecture (2-tier, 3-tier), Full Stack Engineering in detail.

He emphasized on the job roles in the market on being trained as a full stack developer , the tools involved and gave a light on their collaboration with other companies in the industry.

The Session was very useful in increasing the student's awareness about the skills required for full stack development. Being a full stack developer gives complete ownership and understanding of the project, saves both project time and cost and enhances productivity, faster bug fixing due to knowledge of complete system, easy knowledge transfer to other team members and better division of work amongst team members

A brief profile of the Resource Persons :

Mr Ajay Sreenivas, CEO, GTRAC and JAYBLUES Technologies, Mysuru.

He has a degree in BE Electronics and Communication and started his career as a software developer . He has worked in companies such as Beyond Square, Delloite and Unilog .
