## BCA in Artificial Intelligence (AI)

### Artificial Intelligence: Shaping the Future of Careers

The world is rapidly transforming with AI at its core, revolutionizing industries and creating endless opportunities. To equip students for this AI-driven future, our college is launching a three-year BCA program in Artificial Intelligence in 2025-26 at our Post Graduate Campus. This program will provide students with the technical skills, problem-solving abilities, and ethical understanding needed to thrive in the evolving world of AI. It is an exciting opportunity for young minds to be part of the future of innovation and global impact.

#### Why AI? The Future Beckons

AI is no longer confined to science fiction or research labs; it has become a mainstream driver of progress. Here's why a career in AI is among the most rewarding choices for today's youth:

1. High Demand, Global Opportunities
2. Diverse Career Paths
3. Innovation & Impact
4. AI in India's Growth Story

#### Why Choose our BCA (AI) Program?

Our BCA (AI) program is carefully crafted to provide industry-relevant knowledge, hands-on learning, and future-ready skills. The curriculum covers:

- Core AI and Machine Learning Concepts
- Programming in Python, R and JAVA
- Deep Learning, Neural Networks and Computer Vision
- AI in Business and Industry Applications
- Ethical AI and Responsible Innovation
- Live Projects, Internships, and Industry Collaborations

With a strong emphasis on practical learning, research-driven insights and real-world exposure, this program prepares students not just for jobs, but for leadership roles in AI-driven industries.

#### Be a Part of the AI Revolution

The future belongs to those who embrace technology, adaptability and innovation. With AI redefining every aspect of human life, there has never been a better time to build a career in Artificial Intelligence. By enrolling in our BCA (AI) program, students will embark on an exciting journey to become pioneers in the world of intelligent technologies.
